BACKGROUND CHECK

Powered By certn

Softcheck™

Softcheck™ is a real-time public information search that utilizes over 110,000 databases from over 240 countries looking for criminal records, court decisions, negative press, social profiles, public biographies, past employment, and more. When we complete our search it's possible we may receive results for more than one individual that could correspond to the applicant being searched. Therefore we attempt to give each one of these individual records a Similarity Score so you know which record is most likely to correspond to your applicant.

Employment History

Employer	Details	Start Date	End Date

Education History

Institution	Details	Start Date	End Date
University of Toronto	Bachelor of Business Administration (B.B.A.)	Aug 2007	Apr 2011

1 MATCH FOUND

Likely Match - John Doe

The criminal identity Similarity Score is a comparison between the applicant's self-provided information and the corresponding information we find in our database. As a general guideline, if the results of our criminal identity scan has a Similarity Score of 'Likely Match', Certn can confidently predict that the information presented below corresponds to the applicant being screened. However, if the criminal scan returns the results with a Similarity Score of 'Possible Match', the onus falls on the client to accurately verify the results.

Criminal Scan
